

EL TORBELLINO

NEWSLETTER OF SAN DIEGO ORBITEERS FREE FLIGHT CLUB

AUGUST 2016

The Prez's Corner – Don Bartick

For those of you who are members of the National Free Flight Society and those of you who should be members, our own Arline Bartick, free flight photographer extraordinaire, made the front and rear covers of the May/June NFFS Digest. Quite and honor for her. She was thrilled.

I finally got a little flying in at the August Indoor meet. Its been a bit of a dry spell since the club went dark for July/August outdoor contests and the Grossmont gym not available for July. Felt good winding rubber. On top of that, I put in some decent Penny Plane flights. Not good enough to win, but the best so far for me. Look for some pictures of the event somewhere in this ET. The Scale Staffel and Orbiteers participate together to give the indoor flyer plenty of action. Just think about it, you don't have to chase a model, nor worry about the weather. This makes indoor flying very appealing. Those of you that haven't tried indoor, take the opportunity and come to the monthly indoor contest held the first Sunday of the month starting around 7:30 am and ending at noon. It's easy to get the bug.

Dog days of summer are about over and the fall outdoor contests held at Lost Hills are around the corner. Look for some flyers somewhere in this ET of coming events. One specific is the US Free Flight Championships held 23-25 September. It is the largest on the West coast for all venues of Free Flight. Awards are cash. Try it, you may really like it.

The Summer Olympics are almost over. I would doubt in the near future there will be an event for Drones. I've noticed that they have Drone races and obstacle courses. My my, what a waste of time when they could be building and flying free flight.

That's a wrap for now.

Remember: "You can tell more about a person by what he says about others, then by what others say about him."

-Leo Aiken

The P-30 Free Flight Outdoor Event

By Mike Jester

This article summarizes the basics of the P-30 event in the hopes of enticing those who have not tried this event to get on board. It was originally created and developed by the San Diego Orbiteers club in the 1970's as an entry level event suitable for small flying fields. The P-30 event is now popular all over the world. The rules are simple. When assembled the P-30 airframe is limited to a maximum dimension of 30 inches in any orientation. The prop must be a commercially available plastic freewheeling propeller with a diameter between 9.05 and 9.84 inches. The maximum weight of the lubricated rubber motor is 10 grams and the minimum weight of the model, without the rubber motor, is 40 grams. In a P-30 contest the flier's score is the total of three official flights, each with a two minute maximum. There is a fly-off to break a tie score in which 30 seconds are added to the maximum in each round until a winner is declared.

Over several decades many different P-30 models have been designed that have flown successfully. Quite a few P-30 plans have been published and are still readily available. Lots of P-30 models have been kitted. See p30page.weebly.com for pictures and descriptions of many popular P-30 models. They basically fall into two separate categories: 1) those with built-up stick and tissue fuselages; and 2) those with rolled tube fuselages. One of the earliest P-30 models is the HOT BOX designed by the late San Diego Orbiteer, John Oldenkamp, who was a very accomplished modeler and flier. It is still being flown by club members to this day, and is very competitive. An example of this model is the beautiful HOT BOX P-30 built by Mark Chomyn that is pictured below.

HOT BOX P-30 Built by Mark Chomyn

My first P-30 was a Square Eagle (pictured hereafter). This model was wisely recommended to me by John Hutchison. I built it from the kit sold at the time by Blue Ridge Models. In my never ending quest to reduce weight, I cut big round holes in the balsa sheet fuselage sides. This was not necessary, and provoked lots of teasing at my first P-30 contest at the club's old Otay Mesa flying field. I got lucky with thermals and won that contest, proving that any model, and any flier, can win a P-30 contest. I used a 9 ½ inch GizmoGeezer prop assembly because it allows for easy thrust line adjustments and it free wheels in a very reliable fashion at the conclusion of the rubber motor run.

Square Eagle P-30 Built by Mike Jester

Probably the simplest P-30 to construct is the One Nite 28 sold in kit form for many years by Peck-Polymers. The recent reincarnation of that company is not yet selling the One Nite 28 kit but I suspect it will in the near future. Leave off the single wheel landing gear and the tip plates on the stab as P-30 is not a rise-off-the-ground (ROG) event. Don't be tempted to increase the wingspan from 28 inches. It flies great!

Peck-Polymers One Nite 28 P-30 Built by Dave Scigliano

More accomplished P-30 builders and fliers may wish to build an advanced design such as the Boomer MK III, available in kit form from CB Model Designs. See www.cbmodeldesigns.com. This model was designed by Clint Brooks who has achieved considerable success in very competitive P-30 contests. The kit includes a GizmoGeezer prop assembly and a pre-fabricated balsa tube fuselage with a wing pylon already installed. Hardware is also included for installing a dual DT system with both a pop-up wing and pop-up stab. The under cambered wing of the MK III has built-in washout. I have personally seen Clint fly this P-30 model at the SCAMPS field in Perris, California and its performance is very impressive.

Boomer MK III P-30 Built by Clint Brooks

Another top performing P-30 model is the Pirate designed by a Russian, Andrey Burdov. At one time it could be purchased ready-to-fly from Starlink Flitotech. See www.starlink-flitotech.com. It has a very narrow tubular fuselage and an integral wing pylon, both formed of some type of very thin fiberglass material. The Pirate P-30 has an under cambered wing with a carbon fiber spar. I believe that Mike Pykelny is currently working on making the Pirate P-30 available again from Starlink Flitotech. He also sells Stan Buddenbohm's Air Shark MK II P-30 in kit form, which is a very competitive design. Many know about Stan's world records in glider events, but they may not know that he is also an extremely accomplished rubber power builder and flier.

John Hutchison Launching his Pirate P-30 at Otay Mesa, California

Here are a few comments about building and flying a P-30 model. As in all rubber powered free flight events, weight is your enemy in the P-30 event. It is difficult to build a P-30 near the 40 gram minimum weight specified in the rules. Most P-30 models come out somewhere between 40 and 50 grams. However, P-30 models that are a few grams over the minimum still seem to be very competitive. Nearly every one flies their P-30 airplanes with a 6 x 1/8 inch rubber motor, which ends up being around 19 inches in length. This rubber motor configuration gives a nice combination of climb and cruise for the type of prop specified in the rules. Many P-30 fliers insist that the Czech (Ikara) prop provides the best performance in this event. However, I have tried every commercially available legal P-30 prop and have not noticed much of a difference in performance, if any at all. It would be prudent to incorporate a de-thermalizer (DT) into your P-30 model as it will fly OOS if it catches a thermal. Tilt-up stab, pop-up wing, and pop-off wing DT systems are all used in P-30 models. The optimum trim depends on the model but the most competitive P-30 airplanes seem to climb in a relatively steep corkscrew pattern for 40+ seconds before transitioning into the glide phase of the flight. As in most outdoor free flight events, amongst fliers with well-trimmed models the winner of a P-30 contest is often the flier that "picks the best air."

Every three months P-30 is the featured event at our club's outdoor contests in Perris, California. It would be nice if we had some new P-30 fliers on October 16, 2016, which is our next scheduled P-30 contest. Seasoned club members would be glad to assist you in trimming your new P-30 model at that contest. See you there.

51st Rocky Mountain Free Flight Championships Sept. 2-5, 2016

Cat. II, Class AAA, National Cup **Exempt**

- FAI America's Cup: *Dynasty Cup*
- FAC *Mountain States Scramble*

Located about 20 miles ESE of downtown Denver. Drive six miles east of E-470 on Quincy Ave. Continue one mile east of "T" intersection at Watkins Road, look for MMM entry gate on right (south) side. Call or e-mail for gate combo.

Friday, 9/2 3-5 p.m.

FAC Scale judging at Hickory House Ribs (downstairs banquet room) 10335 South Parker Road, Parker, CO. 1/2 mile past Lincoln Ave. intersection.

Saturday, 9/3 8 a.m. - 5 p.m.

Dynasty Cup: F1A, B, C | P, Q
Vintage FAI Power
AMA P-30
AMA A | B Electric combo
AMA AB Classic Gas
NFFS Classic Towline

FAC *No-Blue-Max* Horde (3 p.m.)
FAC Dime Scale
FAC Embryo
FAC Jet Catapult Scale

Sunday, 9/4 8 a.m. - 5 p.m.

Gollywocks Galore: 7:30 a.m. launch
Dynasty Cup: F1G, H, J, S
AMA C | D Gas combo
AMA CD Classic Gas
Nos. B | C Gas combo
AMA HLG
Nos. Sm. Rubber | NFFS Sm. Mulvihill | SAM Sm. OT Rubber combo
E-Nos. 1/2A | ABC combo
FAC Low Wing Trmr. M.L. (11 a.m.)
FAC WWII Combat (1 p.m.)
FAC 2-Bit + 1
FAC OT Stick
HLG Mass Launch (5:15 p.m.)

Monday 9/5 8 a.m. - 3 p.m.

Dawn Power: 7:30 launch
AMA A | B Gas combo
AMA 1/2A | 1/2A Classic combo
A Nostalgia Gas
AMA E-36
AMA Catapult Glider
SAM .020 Replica
SAM OT HLG | OT CLG
MMM Slow Open Power
AMA Mulvihill | Moffett combo
SAM Large O.T. | Nos. Large Rubber combo

The following events may be flown any/all of the three days (need not finish on day started): FAC Peanut Scale, FAC Rubber Scale, FAC Power Scale, Junior P-30, Junior E-36, Junior HLG, Junior CLG.

Contest Directors: Don DeLoach, 719-964-7117, <ddeloach@comcast.net>; Chuck Etherington, 720-201-6218, <chuck.etherington@jeppesen.com>. Visit <www.themmmclub.com>.

The Fine Print:

- On-site tent/RV camping allowed, no water or hookups, \$25 flat fee for any number of nights; no campfires.
- Lunch vendor on site Saturday, Sunday, Monday.
- Please support our vendor!
- All events will follow current AMA, NFFS, FAC, FAI, and SAM rules; Exception: ROG is optional in all events.
- In combined events contestants may fly any/all events within the groupings for National Cup points and/or to better an existing score for RMFFC award purposes. For example, in C/D Gas Combo, you may fly separate flight strings with both C and D models.

Only your best score of the two will count for RMFFC awards purposes; both scores count for National Cup points.

- MMM SLOP: 20K ground RPM limit up to .10, .10 and over limited to 18K. Category II Nostalgia engine runs and maxes.
- At CD's discretion AMA and OT HLG and CLG may be flown from a 40'x40' launch pen.
- Old Timer HLG/CLG: same flyoff rules as AMA CLG/HLG (120s max, one chance to max, keep maxing until you drop).
- FAI events: 60 minute rounds starting at 8:00 a.m. each day, weather permitting. Seven rounds of F1ABC/P Saturday; 5 rounds of F1GHJS Sunday. Flyoffs (if needed): 5:10-5:20 p.m. and/or the following morning.
- FAC *No-Blue-Max* Flying Horde open to any FAC model, scale or duration, non Blue Max holders only. Single round, last one down is the winner and gets a Kanone!
- Gollywicks Galore: Meet at 7:15. Launch window: 7:30-7:40 a.m. Must wind and launch inside the 10-minute window, no max, timed to the ground. Eligible models: Gollywock, Vargowock, Jabberwock, Dynamoe. All SAM rules apply.
- Dawn Power: 7:30-7:40 a.m. launch window. All power models fly together including FAI, Nos, AMA, SLOP, Electric. One attempt allowed for one flight with no max. 15-second engine run.
- **Dave Wineland's Gas Attack!** \$100 cash to the longest string of maxes in any regular RMFFC gas event including AMA, Nos, SAM, FAI, MMM SLOP. Must follow rulebook engine runs/maxes including flyoffs. Automatic, free entry. **Thanks Dave!**
- Awards through third place in all events.
- The following RMFFC perpetual trophies will be awarded: F1A, F1B, Gollywock, Mulvihill, Rubber Scale, Collins Glider Hi-Point, Gibbons Rubber Hi-Point, McGhee Power (includes electric events) Hi-Point, and the 1961 RMFFC Grand Champion Trophy.
- Grand Champion scoring: Choose up to 5 events: 1 Rubber, 1 Power, 1 Glider, 2 of any. 5, 3, 1 points for 1st, 2nd, 3rd places respectively; bonus points based on number of competitors in each event per the NFFS scoring matrix. See NFFS rulebook, page 12: <www.freeflight.org>. Tiebreaker: Total points accrued in flyers' other events apart from the five chosen events.
- CD reserves the right to reduce maxes/engine runs to suit weather/field conditions.
- Raffle during awards ceremony Monday, appx 4 p.m. **PLEASE DONATE ITEMS**. 100% of ticket sales benefit MMM and our great flying site.
- Glider Champion, Rubber Champion, Power Champion scoring: 5, 3, 1 points for 1st, 2nd, 3rd, per the NFFS scoring matrix. All glider/rubber/power events count including scale (excluding mass launches). No maximum number of events to be counted. Tiebreaker: total number of maxes achieved. **"Power" includes electric events.**
- Junior/Senior Championship award: for highest scoring Junior/Senior per the RMFFC Grand Champ scoring (above).
- Accommodations: 20 min. from field, 5 min. from banquet: Super 8, Parker, Colo., 720-851-2644, \$92 including tax for a two-queen room in prepay online at <www.super8.com/parker>. 2. Hampton Inn, Parker, Colo., E-470 at U.S. 83/ Parker Rd., 303-841-2977, appx \$110. 30 min. from field, 15 min. from banquet: Motel 6, Arapahoe Rd. at I-25, 303-790-8220. Appx \$60.

Detach & mail (or scan and email) to: Don DeLoach 831 E. Willamette, Colo. Spgs, CO 80903, <dloach@comcast.net>.

Entry Fees: Open: \$20 first event, \$10 each event thereafter, \$50 max. Juniors/Seniors: \$10 flies unlimited events. Make checks payable to

"MMM Club" or Paypal to <mmmffclub@gmail.com>. **Make your contest directors happy...PLEASE PRE-ENTER!**

>> Pre-entry: Unlimited events for \$40, if entry & payment received by 8/31/15 <<
