

# EL TORBELLINO

NEWSLETTER OF SAN DIEGO ORBITEERS FREE FLIGHT CLUB

AUGUST 2018

## ***The Prez's Corner – Don Bartick***

There is little to say this month, but we'll make the best of it. We had a couple additional sales of Harry's and Gus's FF stuff. Mike Pekelny took it upon himself to sell an assortment of Harry's small nitro engines and I sold a couple of Gus's CO2 engines. Total to the Orbiteers was \$80. Same amount to the Scale Staffel club. I still have some CO2 engines available. Anyone interested, email me. Contact info is on the inside cover of this ET.

I sure miss flying outdoors. The super hot weather hasn't been fun. As you know, I also grow wine grapes and make wine for a hobby. Well, that heat wave that brought Ramona record heat of 117 degrees also was devastating to many of the commercial vineyards and wineries in Ramona. Large percentages of grapes were lost. So sad. My vineyard escaped damage fortunately. Sure do have a deep respect for farming. Let's hope we can resume outdoor flying next month.

I've had some time to do some building. First off the board was a Gollywock for small OT rubber. Next, will be a Joulebox Mk III E-30 by Clint Brooks. This was a birthday gift from my lovely Arline. She has been pressuring me to get into electric FF. Well, she took it upon herself to make it happen. I'm looking forward to trying something different. Although, I still love the smell of Nitro.

Indoor flying continues to grow. The folks getting into Indoor FF are starting to get real good at it. The competition is great. For those of you out there in Orbiteers land that hasn't flown Indoor FF, you should really consider this venue. The planes are simple, cheap and lots of fun to fly but still challenging. The

weather is always great and the chases are very short.

The Outdoor Competition season is almost upon us. Look for contest flyers in the ET.

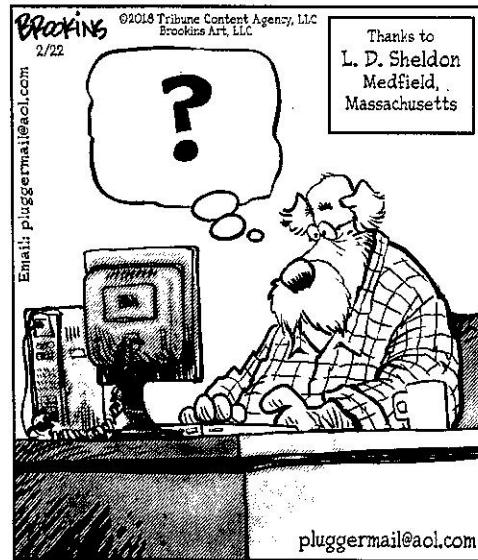

One last word. Our ET Editor, Howard Haupt continues to put out an outstanding monthly newsletter. I'm sure he would like to hear from you from time to time. He's open to new ideas and any constructive criticisms you might have. We're very thankful to have him in this job.

That's a wrap for now.

Remember: "Destiny is no matter of choice. It is a matter of choice."

-William Jennings Bryan

## Square Eagle P-30

By Mike Jester

The P-30 class for outdoor free flight rubber powered models was developed in the late 1970's by Harry Steinmetz and the late John Oldenkamp, both long time members of the San Diego Orbiteers. It has proven to be a very popular class and is flown all over the world. The P-30 rules are pretty simple. The maximum dimension of the model in any orientation is 30 inches. The prop must be a commercially available plastic prop of roughly 9 1/2 inches in diameter. The minimum weight of the P-30 model is 40 grams and the maximum weight of the lubricated rubber motor is 10 grams. My first P-30 was a Square Eagle (pictured below). This model was wisely recommended to me by John Hutchison. I built mine from the kit sold at the time by Blue Ridge Models. In my never ending quest to reduce weight, I cut big round holes in the balsa sheet fuselage sides. This was not necessary, and provoked lots of teasing at my first P-30 contest at the club's old Otay Mesa flying field. I got lucky with thermals and won that contest five years ago, proving that any model, and any flier, can win a P-30 contest. I used a 9 1/2-inch GizmoGeezer prop assembly because it allows for easy thrust line adjustments and it free wheels in a very reliable fashion at the conclusion of the rubber motor run. Unfortunately the GizmoGeezer prop assembly is no longer being manufactured and retail supplies of the 9 1/2-inch version have been exhausted. You can build the new adjustable thrust bearing kit from CB Model Designs or you can resort to the tried and true method of shimming the nose block during trimming.

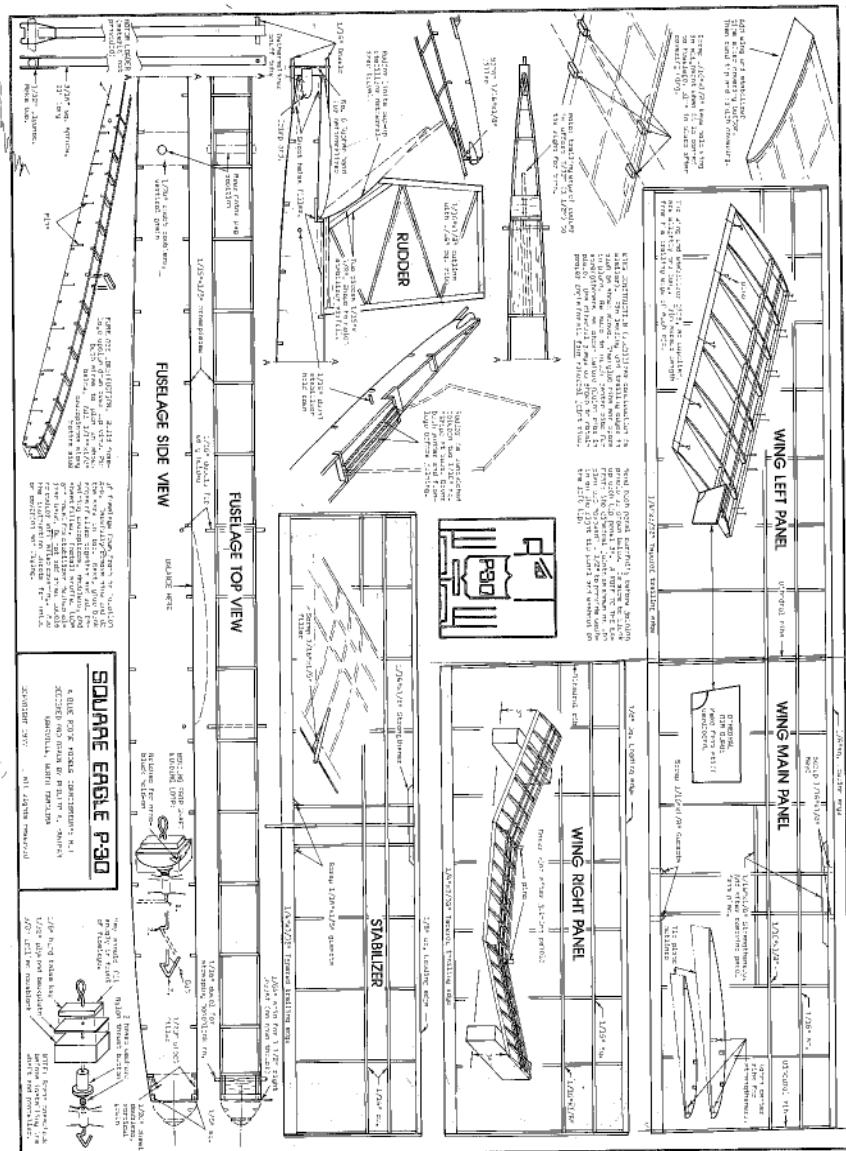

***Square Eagle P-30 Built by Mike Jester***

The Square Eagle kit is apparently no longer being manufactured and sold. You might be able to purchase a Square Eagle kit on eBay. If not, recently an electronic NFFS newsletter that I received via email contained a link to the plan for the Square Eagle. So you can scratch build this model without too much difficulty. A reduced version of the plan for the Square Eagle is attached at the end of this article. A full-size copy of the plan is available from the AMA plans service for \$6.

Continued Next Page

The slab-sided fuselage of the Square Eagle is easy to build but make sure the sheet balsa wood that you use is not too heavy. I would recommend using sheet balsa wood no heavier than 7# - 8# density. One of the clever features of the Square Eagle is that the root rib of each dihedral wing tip section is angled so that an optimum amount of wash-out results when joined with the center wing section. I covered my Square Eagle with Microlite plastic film. This served it well when it spent a few days and nights outdoors on our old Otay Mesa flying field before being found. If you are a beginner, just cover the model with Japanese (Esaki) tissue and seal it with nitrate dope, clear Krylon spray, or Eze Dope. If you decide to build a Square Eagle P-30, you won't be disappointed.

The following events may be flown any/all of the three days (need not finish on day started): FAC Peanut Scale, FAC Rubber Scale, FAC Power Scale, Junior P-30, Junior E-36, Junior HLG, Junior CLG.

Contest Directors: Don DeLoach, 719-964-7117, <[ddeloech@comcast.net](mailto:ddeloech@comcast.net)>; Chuck Etherington, 720-201-0218, <[etheringtonfreeflight@outlook.com](mailto:etheringtonfreeflight@outlook.com)>. Visit <[www.themmmclub.com](http://www.themmmclub.com)>.

## The Fine Print:

- \* On-site tent/RV camping allowed, no water or hook-ups, \$25 flat fee for any number of nights.
- \* Lunch vendor on site Saturday, Sunday, Monday.  
*Please support our vendor!*
- \* All events will follow current AMA, NFFS, FAC, FAI, and SAM rules.
- \* In combined events contestants may fly any/all events within the groupings for National Cup points and/or to better an existing score for RMFFC award purposes. For example, in C/D Gas Combo, you may fly separate flight strings with both C and D models. Only your best score of the two will count for RMFFC awards purposes; both scores count for National Cup points.

- MMM SLOP: 20K ground RPM limit up to .10, .10 and over limited to 18K. Category II Nostalgia engine runs and maxes.
- At CD's discretion AMA and OT HLG and CLG may be flown from a 40'x40' launch pen.
- Old Timer HLG/CLG: same flyoff rules as AMA CLG/HLG (120s max, one chance to max, keep maxing until you drop).
- FAI events: 60 minute rounds starting at 8:00 a.m. each day, weather permitting. Seven rounds of F1A-B-C/P Saturday; 5 rounds of F1G-H-J-S Sunday. Flyoffs (if needed): 5:10-5:20 p.m. or the following morning.
- FAC No-Blue-Max Flying Horde open to any FAC model, scale or duration, non Blue Max holders only. Single round, winner gets a Kanone.
- Gollywocks Galore: Meet at 7:15. Launch window: 7:30-7:40 a.m. Must wind and launch inside the 10-minute window, no max, timed to the ground. Eligible models: Gollywock, Vargowock, Jabberwock, Dynamoe. All SAM rules apply.
- Dawn Power: 7:30-7:40 a.m. launch window. All power models fly together including FAI, Nos, AMA, SLOP, Electric. One attempt allowed for one flight with no max. 15-second engine run.
- Dave Wineland's Gas Attack! \$100 cash to the longest string of maxes in any regular RMFFC gas event including AMA, Nos, SAM, FAI, MMM SLOP. Must follow rulebook engine runs/maxes including flyoffs. Automatic, free entry. Thanks Dave!
- "5x5 HLG" special event flown at 11 a.m. Monday. AMA HLGs flown in five 5-minute rounds with 90-second maxes; 10-minute chase period between rounds. R1: 11:00-11:05; R2: 11:15-11:20; R3: 11:30-11:35; R4: 11:45-11:50; R5: 12:00-12:05. \$100 cash to winner!
- Awards through third place in all events.
- The following RMFFC perpetual trophies will be awarded: F1A, F1B, Gollywock, Mulvihill, Rubber Scale, Collins Glider Hi-Point, Gibbons Rubber Hi-Point, McGhee Power Hi-Point (includes electric events), and the 1961 RMFFC Grand Champion Trophy.
- Grand Champion scoring: Choose up to 5 events: 1 Rubber, 1 Power, 1 Glider, 2 of any. 5, 3, 1 points for 1st, 2nd, 3rd places respectively; bonus points based on number of competitors in each event per the NFFS scoring matrix. See NFFS rulebook, page 12: <[www.freeflight.org](http://www.freeflight.org)>. Tiebreaker: Total points accrued in flyers' other events apart from the five chosen events.
- CD reserves the right to reduce maxes/engine runs to suit weather and/or field conditions.
- Raffle during awards ceremony Monday, appx 4 p.m. PLEASE DONATE ITEMS. 100% of ticket sales benefit MMM and our great flying site.
- Glider Champion, Rubber Champion, Power Champion scoring: 5, 3, 1 points for 1st, 2nd, 3rd, per the NFFS scoring matrix. All glider/rubber/power events count including scale (excluding mass launches). No maximum number of events to be counted. Tiebreaker: total number of maxes achieved. "Power" includes electric events.
- Junior/Senior Championship award: for highest scoring Junior/Senior per the RMFFC Grand Champion scoring (above).
- Accomodations: 1. Super 8, Parker, Colo., 720-851-2644, \$130, 20 min. from field. 2. Hampton Inn, Parker, Colo., E-470 at U.S. 83/ Parker Rd., 303-841-2977, appx \$110. 20 min. from field. 3. Motel 6, 9201 E. Arapahoe Rd. 303-790-8220. Appx \$73, 30 min. from field. 4. Country Manor Motel, 32681 E. Colfax Ave. Watkins, CO 80137, (303) 261-9650, appx. \$70, 15 min. from field.

Detach & mail (or scan and email) to: Don DeLoach 831 E. Willamette, Colo. Spgs, CO 80903, <[ddeloach@comcast.net](mailto:ddeloach@comcast.net)>. Entry Fees: Adult: \$20 first event, \$10 each event thereafter, \$50 max. Juniors/Seniors: \$10 flies unlimited events. Make checks payable to "MMM Club" or Paypal to <[ummmffclub@gmail.com](mailto:ummmffclub@gmail.com)>. Make your contest directors happy...PLEASE PRE-ENTER!
